Profile

innovative web developer with a passion for combining technology and creativity to solve real-world problems. Skilled in designing and developing dynamic, scalable web systems and always eager to explore emerging tools and frameworks.

Skills

Programming Languages:

Java, Python, JavaScript, SQL, HTML, CSS

Front-End Development:

HTML5, CSS, JavaScript, jQuery, AJAX, JSON, Responsive Web Design, UI/UX Principles

Back-End Development:

Node.js, Express.js, RESTful APIs, Authentication (Firebase), MVC Architecture, API Integration

Database Management:

MongoDB, MySQL, Firebase Realtime Database

Tools & Platforms:

Git & GitHub, VS Code, NetBeans, Android Studio, Canva, Figma

Education

- Adventist International School, Vavuniya**
Primary and Secondary Education 2009 -2016
- Saivapragasa Ladies' College, Vavuniya**
Ordinary Level (O/L) and Advanced Level (A/L) Education – Physical Science Stream 2016 - 2023
- Sri Lanka Institute of Information Technology (SLIIT)**
Higher National Diploma in Information Technology (HNDIT) 2024 -Present

Professional Memberships

- Institute of Electrical and Electronics Engineers (IEEE)**
Member since December 2024 / Member No: 100620093 / Status: Active
 - IEEE Computer Society – Active Member (1 year)
 - IEEE Industry Applications Society (IAS) – Active Member (1 year)
 - IEEE SIGHT (Special Interest Group on Humanitarian Technology) – Active Member (2 years)

Experience

- UI/UX Designer Intern**
IdeaTech (Pvt) Ltd Dec 2025 – Present
Designed wireframes and high-fidelity UI screens using Figma, contributing to user-centric web and mobile interfaces. Conducted UX research and created user flows while maintaining consistent design systems. Collaborated closely with developers and the product team to translate requirements into intuitive designs, improving overall usability and visual consistency across products.
- Volunteering**
 - Editorial Team Member – Embed X 2025**
Organized by IEEE IAS and IEEE PES Student Branch – SLIIT August 2025
Contributed as part of the editorial team for Embed X 2025, an event focused on robotics and embedded systems. Designed flyers, member tags, and other promotional materials while collaborating with the committee to ensure effective event branding and communication.
 - Program Team Member – Lead Spring 2025**
Organized by IEEE IAS and IEEE PES Student Branch – SLIIT December 2025
Serving as a program team member for Lead Spring, a leadership and entrepreneurship initiative. Responsible for investor research, agenda planning, and assisting in organizing podcast sessions and curated tracks that help students build leadership and startup skills.

Competitions

- Innovélec 2025 – Most Innovative Product Competition**
IEEE PES Student Chapter – SLIIT 12th July 2025, SLIIT Malabe
Participated in the Most Innovative Product category with a team-developed budgeting app SaveLKR, featuring OCR bill scanning, expense categorization, and visual budget analytics.
- Electroverse 2025 – IoT Hands-on Group Competition**
IEEE Power & Energy Society – SLIIT 4th October 2025, SLIIT Malabe
Engaged in a group-based IoT hands-on competition using MagicBit kits, developing practical skills in embedded programming, sensor integration, and teamwork.

Projects

Personal Project

- SaveLKR – Smart Budgeting App**
Technologies: HTML, CSS, JavaScript, Firebase, Tesseract.js
A smart budgeting web/app that allows users to track daily expenses, scan bills using OCR, and categorize spending automatically. Includes voice summaries in English, Sinhala, and Tamil, with visual insights comparing planned vs actual spending

University Project

- Fresh Organic – E-commerce Platform for Farmers**
Technologies: HTML, CSS, PHP, MySQL, phpMyAdmin, JavaScript
Developed a full-stack web platform to connect local farmers with customers for selling organic produce online. Implemented product listings, user authentication, and database management using PHP and MySQL through phpMyAdmin. Included sections for farming tips, traditional remedies, and feedback to strengthen farmer-customer interaction.
- LearnHub – University Book Exchange and Learning Portal**
Technologies: HTML, CSS, Bootstrap, JavaScript
Designed and developed a responsive frontend website where university students can buy and sell second-hand books, access learning tutorials, and find study buddies across universities. Focused on a clean, user-friendly interface with smooth navigation using Bootstrap components and layouts
